

PRIVATE CLIENT

Macleay Street, Potts Point, NSW

Sector: Residential / Civil

Contract Period: 2 Weeks

Remtech were engaged to undertake the Carbon Fibre Reinforced Polymer (CFRP) Strengthening to a luxury private penthouse residence sited in the exclusive Sydney suburb of Potts Point.

Overlooking the picturesque Sydney Harbour, and located directly to the East of the Sydney Harbour Bridge, St Aloysius' College has been at the educational forefront of Sydney's young men for over 135 years and continues to provide the exemplary education that typifies its locale.

The college has a number of outdoor terrace roof areas, the main of which was the cause of much water penetration during inclement weather periods.

SCOPE OF WORKS

Remtech's scope of works entailed the following:

- Site establishment
- Preparation of slab soffit
- Supply and application of Sika (Australia) CFRP Laminates to slab soffits
- Testing and certification
- Site clean
- Site demobilisation

Following completion, Remtech ensured the client was delivered a highly proficient project of superior quality, harnessing all necessary guarantees and compliance documentation.
