

## ST ALOYSIUS' COLLEGE

Milsons Point, Sydney, NSW

Sector: Education

Contract Period: 3 Weeks

Remtech were engaged to undertake a vast array of waterproofing works to the terrace roof area of this iconic college.

Overlooking the picturesque Sydney Harbour, and located directly to the East of the Sydney Harbour Bridge, St Aloysius' College has been at the educational forefront of Sydney's young men for over 135 years and continues to provide the exemplary education that typifies its locale.

The college has a number of outdoor terrace roof areas, the main of which was the cause of much water penetration during inclement weather periods.

### SCOPE OF WORKS

Remtech undertook the following scope of works:

- Site establishment
- Removal of the existing parapet metal cappings to the perimeter of the roof terrace area
- Supply and installation of new made to measure metal cappings
- Cutting and removal of decorative concrete topping adjacent the building line
- Supply and installation of torch applied bitumen sheet membrane as a brickwork cavity flashing
- Installation of new decorative concrete topping to match the existing
- Testing and certification of membrane
- Site clean
- Site demobilisation

All works were completed during the college break period to ensure minimal disruption to students' learning.

The waterproofing work was completed successfully and to the satisfaction of the college.

Following completion, Remtech ensured the client was delivered a highly proficient project of superior quality, harnessing all necessary guarantees and compliance documentation.
